01 Company

More than mosaic

Togama combines art and technology.

We are more than a factory manufacturing glass mosaic, we are a company that continually takes the pulse of the avant-garde, offering a product that is above expectations and stylistic techniques required by professionals.

We offer a way of understanding urban and domestic space within the framework of high decoration, opting for a personalized lifestyle, where attention to detail and awareness of new trends is our philosophy.

At Togama, we understand that design is an added value that allows us to make a difference, a mark that remains latent in each of the products we develop, and that is the necessary ingredient for us to create living spaces.
